

PITTMAN SLAPS BUT NOT OF ANY GREAT MOMENT

Interview of New Mexico Paper Which Was Reprinted in Congressional Record

United States Senator Key Pittman gave an interview to the Santa Fe New Mexican July 15, 1922, which, at the request of Senator Robinson of Arkansas, was reprinted in the Congressional Record Aug. 2, 1922. The interview led off with the following statement:

ACHIEVEMENTS OF G. O. P. AS SEEN BY SENATOR PITTMAN
"Foreign relations left in chaotic condition."
"Our foreign commerce—there is none."
"Millionaires' taxes reduced; poor people pay."
"The H. C. L. still is a terror."
"Transportation charges increased."
"Unreasonable discriminations."
"Perpetuation of long and short haul outrage."
"Destruction of all state control over interstate commerce."
"Producer and consumer are starving together."
"Harding, Mellon and Wall street keep the soldier from bonus."
"The four horsemen of the Harding administration are—
Poverty,
Distress,
Disorder,
Violence."

Let us analyze these statements in the order they are made.
First, what does Senator Pittman mean by his charge that the republican administration has left foreign relations in a chaotic condition? When the republican administration came into power it is a matter of common knowledge that the United States prestige in international affairs was at a lower level than it had ever been since the republic was founded. The Wilson attempt to dictate to Italy in the Fiume question, to deny Poland its rights in Danzig, to force China to submit to dismemberment of its territory by Japan and sign the treaty of Versailles giving up Shantung, the agreement to permit Japan to seize the island of Yap, the meek submission of the United States to the parceling out of the world among the allies under various mandates had all combined to make the United States government did not concede the right of the Paris conference to restrict American rights or the rights of American citizens in any part of the globe under the guise of mandates.
England was notified our rights in Mesopotamia and other quarters of the globe would be insisted upon in spite of the mandate of the Paris conference giving her exclusive control of those territories.
Japan was notified that we did not recognize her right to a monopoly of the cable and radio stations in the island of Yap, which is the cable and radio center of the Pacific region.
England, Portugal, Holland and Japan were notified that we did not recognize their right to form a combination and secure a monopoly of commercial interests in China to the exclusion and injury of American interests; that the United States would insist upon the "open door" policy in China, a policy which was first enunciated by John Hay for the purpose of keeping the immense Orient free from selfish exploitation by a few nations of the world to the exclusion of American rights.

ORLEANS CASE NEAR DECISION STATES REPORT

Expected Legal Controversies Will Be Adjusted Within Next Two Weeks

It is reported upon very good authority that the legal controversies which have held up work on the Orleans Hornsilver property at Hornsilver will in all probability be adjusted within the next two weeks. The case of C. A. Terwilliger against James Dunfee is set for hearing in the federal court at Carson City on Nov. 25, and if the parties come to an understanding, as is now expected, the way will be cleared for the Orleans Hornsilver Mining company to again proceed with development along broad lines, and which promises to result in the property early being developed into one of the biggest producers in the outside camps of southern Nevada.
There is quite a revival of interest in a mining way at Hornsilver, and the prediction is freely made that before the winter has been very far advanced there will be greater activity than during the days of nearly a year ago, when people flocked into the district from all sections of Nevada.

HORNSILVER IS ATTRACTIVE TO RENO OPERATORS

Hornsilver Mizpah Company Is in Control of Promising Group of Claims

The Hornsilver Mizpah Mining company, thoroughly financed by Reno capitalists, has entered the Hornsilver district, and within a short time a comprehensive campaign of development will be under way. The company is capitalized with 1,500,000 shares having a par value of 10 cents. J. Pincolini, owner of the Mizpah hotel in Reno, serves as president of the company, with Abe Pincolini serving as secretary. L. L. Leonard is a director and J. Pincolini and Mr. Leonard left Tonopah this morning for their home in Reno after spending a few days at Hornsilver looking after development that has been inaugurated on a small scale.
J. Pincolini was carrying a silver button weighing one ounce which he secured from two pounds of ore. Three claims are owned outright and the ledge is the same as the famous old State Line, which produced heavily during the '70s. The ledge in places has a width of 30 feet, while from open crosscuts that have been run there is to be found 10 inches of ore that shows average assay values of \$1500 a ton, with the white metal predominating to a large extent. There is also showing about 18 inches of ore that is worth \$300 a ton, according to numerous assay tests.
The management has already caused to be removed from Goldfield one frame building and another will be taken to the seat of operations during the coming week, at which time work will be started sinking a shaft. At the present time there are 75 sacks of high-grade ore on the dump which is estimated to be worth about 50 cents a pound.

ALTO DIVIDE SHOWS SEAMS OF RICH ORE

No important changes were reported during the past week at the property of the Alto Divide Mining company. Work was continued with satisfactory results from the 400 level in the south drift and strings of high-grade ore putting in their appearance. A raise has also been started following a number of seams of ore and it is expected at any time to pick up a commercial body of ore.
This company is carrying forward one of the most important pieces of development in the Divide district, outside of the Tonopah Divide, Tonopah Dividend and Gold Zone companies, and Joe Mayer, the superintendent, feels confident that in due time he will have a reliable producer. To that end he is hurrying development ahead, and the results so far attained, after driving about 700 feet to the south, are of a most encouraging nature.

Mr. Pincolini thinks that Hornsilver is destined to become one of the greatest producing camps in the state, and to that end is negotiating with other owners of property with a view of securing additional holdings. In the event the deals are consummated he will form other companies.
The property of the Hornsilver Mizpah Mining company adjoins the Rosetta on the east and lies close to the Goldsmith, both of which are making splendid mineral showings at the present time. All are worthy of thorough exploitation and before the winter has drawn to a close it is hoped to have all three groups enumerated above developed to the shipping stage.

TONOPAH DIVIDEND PROSECUTING WORK

The New Tonopah Dividend Mining company, operating in the Divide district, is still prosecuting development in a limited way, work being centered through No. 2 shaft. The drive is being made to pick up the Divide breccia and when the objective is reached it is surmised that some important discoveries will take place. E. P. Cullinan, master mind of the company, is expected to return from the east within the next two weeks and at that time plans will be formulated for an enlarged campaign of development.
